

ED Japan Chapter

- by Mitsumasa Koyanagi, Chair

On July 29, 2009, the DL meeting was held at Tokyo Institute of Technology, Yokohama. Prof. Hei Wong gave a lecture on recent interesting technologies. Prof. Hei Wong is from City University of Hong Kong, China. The title of his lecture was " Silicon Integrated Photonics: Potentials and Promises". He talked about the successful development of Si integrated photonics including on-chip optical interconnection. His presentations offered the attendees the opportunity to get to grips with up-to-date, interesting and useful research. The meeting, with 25 participants, was very successful.

In addition, in the third quarter of this year from July 2009 to September 2009, ED Japan Chapter had 3 joint technical meetings with the Japan Society of Applied Physics, etc.
