A.1-2 Section Highlights

The IEEE Kansai Section was established in November 1998. As of January, 2017, it comprises of 2,222 members (see B-1).

In 2017, we had five executive committee meetings, an annual section meeting and five technical meetings.

In 2017, we supported the HESTELCON 2017 in Kansai with great successes. We focused on connecting local electronics industries in Kansai area with students, researchers in universities/institutes and professionals and engineers in enterprises.

We endeavored to expand and enhance activities focusing on young people. Activities of LMAG, WIE, and YP are also activated. For example, two students were dispatched to ANZSCON 2017 held in Sydney in August. English presentation tournament was organized by SB, and brainstorming tournament was organized jointly by SB and LMAG. We also assisted participation in Nagoya MAW and worked with other sections.

PART B - ORGANIZATIONAL ACTIVITIES

B.1 Membership Development Activities

The member statistics by grade in the section at the end of December, 2017 are as follows:

Grade	Grade Code	Number
Honorary Member	Н	1
Fellow	F	73
Senior Member	SM	151
Member	M	1,602
Associate Member	AM	62
Graduate Student Member	GSM	285
Student Member	StM	48
Total		2,222

The Membership Development Committee has actively pursued the following projects to increase the number of IEEE members in the Kansai Section in corporation with Student Activities Committee.

- 1. MDC organized two MDC, SAC and YP joint workshops on June 1, 2017 and November 29, 2017 to advertise and share the benefits of IEEE membership and to make a smooth transition for students from student membership to standard membership when graduated.
- 2. MDC periodically reviewed the membership statistics in major organizations (companies and research institutes) and shared them with the MDC members who are from those organizations.
- 3. MDC is continuously supporting the scheme to increase the number of Senior Members in the Kansai Section. Those IEEE members who wish to be a senior member can contact MDC and get quick and precise assistances. The application instructions for Senior Member grade on the section's website were revised and became more informative, resulting in the number of newly elevated senior members in our section in a year became ten.
- 4. To advertise IEEE membership, posters, leaflets and ball point pens with IEEE logos were presented at local technical meetings and workshops.
- 5. Email to promote renewal was sent to all IEEE members in Kansai Section.
- 6. The IEEE Kansai Section Medal is presented to new Senior Members. The medal is designed with a portrait of Gennai Hiraga, who was a multi-talented person, especially known as writer and inventor in Edo era, and assembled Japan's first electrostatic generator (called Elekiter), which used the power of friction to generate electricity. We will present the medals to ten new Senior Members at the annual section meeting on February 28, 2018.

B.2 Chapter Activities

- Total number of Chapters in the Section is now 13 including 4 joint chapters.
- The number of Chapters has not increased this year.
