

# IEEE Student Branch Leadership Training Workshop (SBLTW) 2019 Report

IEEE Waseda University Student Branch Chair

KENSUKE Nagaya

## 1) Abstract

Student Branch Leadership Training Workshop (SBLTW) 2019 sponsored by IEEE JC SAC was held from May 25 to 26, 2019 at Nishi Waseda Campus of Waseda University. With the participation of Student Branch (SB), which started a new activity this year, the event was held earlier than usual with the intention of making the timing of exchanges as early as possible. A total of 48 SB members gathered from 23 universities in Japan listed in Table 1.

Table 1 Participating university of IEEE SBLTW 2019

|        |               |        |        |
|--------|---------------|--------|--------|
| 室蘭工業大学 | 北海道大学         | 東北大学   | 会津大学   |
| 慶應義塾大学 | 早稲田大学         | 明治大学   | 東京理科大学 |
| 東京農工大学 | 東京電機大学        | 電気通信大学 | 青山学院大学 |
| 名古屋大学  | 京都大学          | 兵庫県立大学 | 同志社大学  |
| 大阪大学   | 奈良先端科学技術大学院大学 | 関西大学   | 香川大学   |
| 広島支部   | 熊本大学          | 琉球大学   |        |

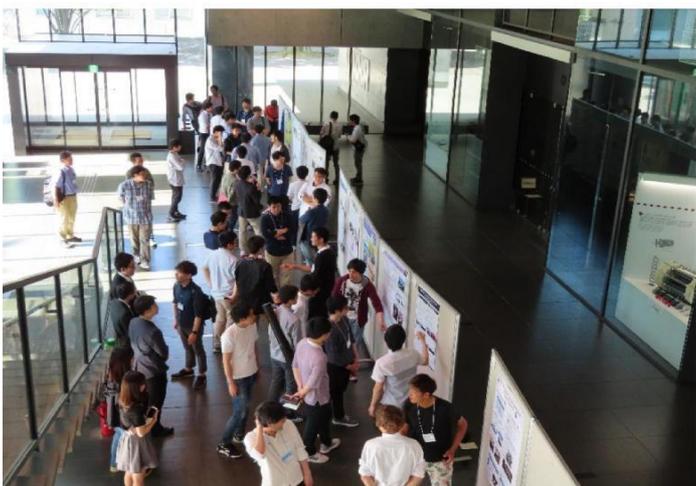

The two-day schedule began with a poster session, where we could share what we have done with each other and motivate ourselves for this year's activities. Also, through the leadership training by JC SAC chair Kajikawa and the welcome reception, the exchange meeting by the SB of Waseda University, we were able to the deepen connection with other university's and were able to spend a very meaningful time.

## 2) First Day 14:20~14:30 : Greetings

At the beginning of this workshop, we did self-introduction and gave a commendation ceremony for the Student Branch that celebrated the 10th anniversary of the establishment.

## 3) First Day 14:30~17:00 : Poster Session

Here, we shared the last year's activity reports of each university and the members' own research. We were able to get a lot of learning from other university activities. In my opinion, SBs in the Kansai area were helpful because they were actively working with nearby universities. Also, it was a good time for us to get feedback from students who study the same field of research.

#### 4) Second Day 9:20~10:20 : Leadership Training (by JC SAC Chair)

Leadership training was conducted by Professor Kajikawa. Here, we got some ideas and advice for carrying out SB activities, and we presented a report on the activities of some SBs

#### 5) Second Day 10:30~12:00 : Student Activities Workshop (by Waseda SB)

The last of SBLTW was an exchange meeting by members of Waseda SB. We organized a workshop to think about ideas for joint activities with other universities, grouped by common hobbies and research fields. There were funny projects that made us laugh, and interesting projects related to ICT, and we had a good time.
